To whom it may concern:

Hardaway Construction of Tennessee recently completed a design-build facility for the church of Christ at 1200 Cedar Lane (formerly Bel-Aire church of Christ) in Tullahoma, Tennessee. The 50,000 square foot. building is of excellent quality. All design requirements were met and the project was completed in approximately 11 months as planned. Final cost will be at or below the original estimate.

The facility is extremely functional, spacious, and attractive.

Sincerely,

Jim Patterson  
New Facility Team  
Leader and Business Manager
