

August 30, 2002

Hardaway Construction and First Baptist Church of Hendersonville have had a wonderful relationship for over 20 years. In 1991, they built our 160,000 square foot worship center, education building and Christian Activity Center when our church moved to its current location. In 1997 they added another 40,000 square foot education building and just this year completed construction of our new chapel that seats 500 people.

Hardaway construction has done an excellent job on all of these projects. They provided quality workmanship and unmatched professionalism in all the work that they have done for our church. We appreciate the dedication that they have to our church and ministries and we plan to use them in future building projects.

Sincerely,

Rev. Bill Gruenewald
Minister of Business Administration
